

FIELDWORK SNAPSHOT

Producing, managing and owning knowledge in the 21st century university

We conducted in-depth, semi-structured interviews with academic researchers, university leadership, research managers, and library and information service professionals across Australia.

Interviews were designed to understand how participants make choices about the management and dissemination of their own research or the research outputs of their university.

This project has been reviewed and approved by the QUT Human Research Ethics Committee (ref: 2000000609).
